Education:

• Madan Mohan Malaviya University of Technology, Gorakhpur <i>B.Tech - Electronics & Communication Engg. (Data Science & Machine Learning)</i>	2023 - 2027 CGPA: 7.57 / 10.00
• Pt. Deen Dayal Upadhyaya Sanatan Dharm Vidyalaya, Kanpur (Class XII) <i>Central Board of Secondary Education (CBSE), New Delhi</i>	2022 Percentage: 94%
• Pt. Deen Dayal Upadhyaya Sanatan Dharm Vidyalaya, Kanpur (Class X) <i>Central Board of Secondary Education (CBSE), New Delhi</i>	2020 Percentage: 91.67%

TECHNICAL SKILLS

Languages:	C, C++, Python, JavaScript, SQL, HTML, CSS
Tools & Frameworks:	GitHub, VS Code, Arduino IDE
Domain / Stack:	Convolutional Neural Networks (CNN)
Cloud / Databases:	AWS, Supabase, SQL (MySQL, PostgreSQL), Render, Vercel
Coursework:	Financial Markets & Trading, Data Analytics & Machine Learning, Content Creation, Software Development
Certifications:	AI Fundamentals — Google, AI Fundamentals and the Cloud — AWS, Machine Learning: Regression and Classification — Stanford Online, NumPy, SciPy, Matplotlib & Pandas: Machine Learning — SARA Academy, Algorithmic Toolbox (DSA with c++) — UC San Diego (Coursera), Web Development: CSS, Bootstrap, JS, React — Udemy, Goldman Sachs – Risk Management Job Simulation

PROFESSIONAL EXPERIENCE

Mastermind Research Technologies — <i>AI/ML Intern</i>	May 2026 - Aug 2026
- Worked on ML & AI - based projects covering data preprocessing, feature engineering, model development, and evaluation - Developed practical solutions using Python, Pandas, NumPy, and Scikit - learn - Applied ML techniques on real - world datasets for prediction, classification, and data - driven analysis - Executed end - to - end ML workflows: data preparation → model training → evaluation → prediction - Gained hands - on experience in AI/ML research, experimentation, and solution development	
Flikt (Startup) — <i>Full Stack Developer Intern</i>	Dec 2025 - Feb 2026
- Developed responsive and user - friendly web application features using React.js, JavaScript, HTML, and CSS, ensuring cross - device compatibility and an improved user experience - Integrated REST APIs, identified and resolved application bugs, and optimized performance to enhance functionality and responsiveness - Collaborated with the development team using Git/GitHub in an Agile development environment, contributing to feature implementation, code reviews, and project delivery	
Mastermind Algo Trader (YouTube) — <i>Founder & Content Creator</i> 	2024 - Present
- Founded and manage an active trading education community on YouTube; design and deploy automated trading strategies for algorithmic execution - Applied backtesting and model evaluation on historical data using Chartink and TradingView; conducted live trading sessions and created educational content on algorithmic and rule - based strategies	

PROJECTS:

Mastermind Research Technologies and Mastermind Algo Trader [Live] [Live 2] <i>Next.js, FastAPI, Cloudflare, Vercel, Render, Supabase (Postgres + Auth), Cashfree, YouTube</i>	
- MSME (Udyam) registered AI, software & research company offering AI/ML and web development services — linked with Mastermind - Algo Trader, a subscription - based trading signals and education platform Remote - Automated payment processing and secured 99.9% platform uptime by deploying the infrastructure on Cloudflare and integrating Cashfree gateways via event - driven API webhooks. - Engineered a high - throughput trading education and signals platform, achieving sub - 200ms response times by integrating a Next.js frontend with a FastAPI backend via REST APIs.	
AI Resume Pro — LLM-Powered ATS Evaluator & Resume Intelligence Platform [Live] <i>Python (Flask), JavaScript, LLMs, Google Workspace APIs (Sheets, Gmail), gspread</i>	
- Smart ATS Evaluator: Integrated LLMs to compute ATS scores and rewrite resume bullets, quantifying achievements and identifying missing technical skills. - Automation Platform: Built a full-stack tool streamlining B2B lead generation and personalized cold-email outreach, reducing manual effort by 80%. - Lead Discovery & Sync: Developed an engine that dynamically fetches targeted prospects, deduplicates, and seamlessly syncs data to Google Sheets via API. - Campaign Orchestration & UI: Automated bulk email campaigns using Gmail API to personalize outreach and dynamically attach optimized PDF resumes; secured SPA with Google OAuth2	
Rajendra Hospital Gorakhpur <i>Next.js 15, TypeScript, Tailwind CSS, Payload CMS, PostgreSQL, REST/Local API</i>	
- Full - Stack Healthcare & Dynamic CMS Platform - Next.js 15, TypeScript, Tailwind CSS, Payload CMS, PostgreSQL, REST/Local API - Engineered Full - Stack Architecture: Built a production - ready hospital web platform using Next.js 15 App Router & TypeScript with sub - second page loads (<750ms).	
MMMUT Hockey Team Website [Live] <i>React, Vite, Supabase (PostgreSQL, Auth, Storage), Vercel</i>	
- Built and deployed the official website for MMMUT's hockey team as Hockey Technical Member Head - Developed a full-stack Admin Dashboard with 10+ modules, enabling non-technical staff to manage players, coaches, matches, gallery, news, and events independently	

- Built automated strategies (Pine Script v5) with Python/FastAPI backtesting + visualization backend; generates live strategy trade signals.
- Designed strategies using Chartink/TradingView; Bull & Bear zone detection, liquidity-based entry, and standard deviation volatility bands.

Other ML & Data Science Projects

ML, Data Science

- 1.Developed Electricity Demand Forecasting model with ML algorithms
- 2.Built Weather Intelligence App with real-time data visualization
- 3. CNN FilterVisualization
- 4. Tesla Stock Price Prediction

ACHIEVEMENTS

- Founder, Mastermind Algo Trader 2024 - Present
- Solved 1 40 + pattern - wise problems on LeetCode and 100+ on GeeksforGeeks — 3 5 0+ problems overall across coding platforms
- Codability National Coding Competition (Rank 13) ; International Hackathon Participant
- Rank 3 & Winner – XM Global Daily Trading Competition (Algorithmic Trading) — ₹45,000 prize — 2026
- Cleared FundingPips Prop Firm Challenge (Phase 1 & 2) – Funded Account – 2025
- Hockey – UP Zonal Cluster (Rank 3); Chess – Winner, KSS; Volunteer – NSS
